Scripting & Automation: Python, Nuke API, PySide / Qt, FastAPI, REST APIs, ComfyUI

WORK EXPERIENCE

Senior Digital Compositor | **Gizmo** *(Game Cinematics)*

- Executed high-end digital compositing and seamless CG integration for AAA-level game cinematics from scratch.
- Utilized advanced AOV-based multi-pass compositing workflows, camera projections, relighting, and look development.
- Integrated matte paintings and complex 3D assets to match artistic intent and lighting continuity.
- Collaborated directly with VFX Supervisors to troubleshoot and solve complex visual and technical shot challenges.
- Developed custom Python workflow utilities to automate repetitive tasks and optimize compositing team efficiency.

Digital Compositor | **Dazzle Pictures** *(Feature Films & Episodic Television)*

- Delivered high-quality digital compositing for international feature films and episodic projects based in Prague.
- Combined live-action footage with complex CG elements, ensuring color consistency and seamless integration.
- Worked across multiple sequence shots while maintaining high quality under tight production deadlines.

Digital Compositor | **MediaMonks** *(Commercials & Interactive Advertising)*

- Produced high-end compositing for global commercial campaigns and interactive projects.
- Collaborated within multidisciplinary creative teams to integrate CG assets into live-action plates efficiently.

PREVIOUS EXPERIENCE (2007 – 2015)

Plus New Media | **Nutcase** | **Hook Up Animation** | **Illusion Studios** | **Various Studios**
Worked across various roles in digital compositing, 2D/3D integration, and post-production for feature films, TV series, and commercial projects.
